

# San Diego Canyonlands

◆ 3552 Bancroft Street San Diego, CA 92104 ◆ 619-284-9399 ◆

**Job Announcement for San Diego Canyonlands a non-profit working to rehabilitate/restore urban canyons and creeks throughout San Diego County.**

**Job Title: Restoration Ecologist/Biologist**

**Job Description: Restoration Ecologist/Biologist for Habitat Restoration in SD County**

**Reports to: Executive Director**

**Scope:** The Restoration Ecologist/Biologist (REB) supports San Diego Canyonlands (SDCL) programs primarily throughout San Diego County. The REB is mainly responsible for vegetation assessment and community classification, habitat restoration planning and subsequent implementation. Conducts project monitoring and reporting as needed. Supports community organizing and canyon-event activities to implement restoration plans and otherwise affect the development, growth and ongoing accomplishment of San Diego Canyonlands' objectives and goals.

**Context:** This job will include implementation of SDCL's Canyon Enhancement Planning and Canyon Stewardship/Restoration plans and programs including: volunteer event facilitation, trail building, supporting SDCL community organizing goals, grant writing, and supervising staff, interns, and volunteers as needed.

## **Qualifications and Certifications**

Applicants should have the following minimum qualifications: a Bachelor's degree in Biology or a closely related field with appropriate areas of study to understand San Diego's local floral and faunal relationships; sufficient local field experience in identification of flora or fauna, particularly rare, endangered, and status and trends, experience in habitat evaluation, and familiarity with suitable mitigation methods including revegetation design and implementation.

**These other qualifications and skills, (though not required), are a plus:**

1. **Focused species survey capabilities** (primarily California Gnatcatcher song birds) meeting agency qualifications/certifications and regulatory protocol requirements, and possess or obtains appropriate permits.
2. **GIS Mapping:** Gathering and mapping conditions data in the field including vegetation communities etc.
3. **Qualified Herbicide Application Certificate or License** Experienced, and state certified herbicide applicator
4. **Wetland Delineation** - Maintain/utilize qualifications as needed.
