

Explanation: This map depicts the results of a trail access user count in Hollywood Canyon, City Heights, conducted by San Diego Canyonlands May 2-9, 2012. The count was specifically designed to collect baseline information about neighborhood canyon use during weekday school commute hours and some weekend hours. Counting use of trail segments was unfeasible, so use at access points was counted instead. No inclement weather occurred during the count times.

**Total Trail Access Users  
(Mon-Fri 7-8am, 1-3pm)  
(Sat-Sun 8-10am, 4-6pm)**

- 8 - 10
- 11 - 35
- 36 - 60
- 61 - 85
- 86 - 97
