

Protocol for Flier Approval from San Diego Unified School District (SDUSD)

It's handy to be able to send fliers to residents home with students.

Each school district in San Diego County has its own protocols regarding the approval of fliers for distribution on school campuses. The protocol in this document is intended for schools within the San Diego Unified School District SDUSD. For schools outside this district please contact the intended district's office directly.

Any flyer that is designed to be distributed at any school within the SDUSD must receive an authorization stamp from the Communications Department of the San Diego Unified School District.

- 1) It helps if you are a non-profit. San Diego Canyonlands can help with that if we are partners on your event.
- 2) It helps if your event is "core curriculum based". For example, it has an educational component about biology/wildlife. If your event is purely stewardship, you'll need a letter or an e-mail from the principal.

For complete instructions on how to submit your flyer for distribution via student take-home visit: www.sandi.net/flierapproval

Follow instructions for creating your flier and you can submit it via e-mail for approval to flierapproval@sandi.net

Current contact for the Communications Department is:

Jennie Breister
Communications Supervisor
San Diego Unified School District
Communications Department
4100 Normal Street, Room 2145
San Diego, CA 92103
